Platform News You Can Use

PLATFORM NEWS YOU CAN USE | JULY 2019

Welcome to **Platform News You Can Use**, our monthly newsletter that provides the latest news and developments related to the major tech platforms in order to help you identify opportunities to increase revenue and to collaborate with the tech platforms more effectively. This newsletter is part of the News Media Alliance Digital Dialogue. For more information on the Digital Dialogue, contact Alliance Senior VP, Strategic Initiatives Danielle Coffey at danielle@newsmediaalliance.org.

Facebook

News Tab: Facebook is reportedly planning on creating a news tab, to be launched later this year, that would allow news publishers to get paid for their content on the platform. [Read more.](#)

Ad Transparency: Facebook now relies only on the news index to exempt news pages from its political ad policy. Eligible publishers can register their pages [here](#).

Terms of Service: Updates to Facebook's terms of service explain more clearly how it makes money from user data and removes content. [Read more.](#)

Content Oversight: Facebook released a report summarizing feedback received through a public consultation on the development of an independent content removal appeal body. [Read more.](#)

Facebook Watch: Facebook outlined planned developments for Facebook Watch, including new Watch Originals and partnerships with publishers, including an expansion of the News in Watch program. [Read more.](#)

Market Research: Facebook launched Study from Facebook, a market research app that offers transparency, compensation to

Google

Local News: Google is reportedly collaborating with AP to build a tool, Local News Sharing Network, that makes it easier for local newsrooms to share content and coverage plans. [Read more.](#)

Incognito Mode: Google's planned changes to Chrome 76 would disable the publishers' ability to detect when a user is in Incognito Mode. [Read more.](#)

Video Viewability: To help increase the viewability of video ads, Google identified three main factors: premium experiences, placement and player. [Read more.](#)

Website Personalization: Google Optimize offers an option to add pages when personalizing a website, allowing publishers to apply the personalization throughout the website. [Read more.](#)

Data Studio: BigQuery now supports parameterized queries, increasing customization and interaction options and making reports faster. [Read more.](#)
