There’s no place like home to slow the spread of the coronavirus.

Social distancing is the most effective tool we have for slowing the spread of the coronavirus. And that means staying home, if you can.

Work from home. Play at home. Stay at home. If you must go out, keep your social distance—six feet, or two arm-lengths apart. Young. Elderly. In between. It’s going to take every one of us. If home really is where the heart is, listen to yours and do the life-saving thing.

Visit Coronavirus.gov for the latest tips and information from the CDC.
