Welcome to Platform News You Can Use. This monthly newsletter provides the latest news and developments (beginning with the most recent) related to the major tech platforms, in order to help you identify opportunities to increase revenue and to collaborate with the tech platforms more effectively. This newsletter also provides an overview of relevant statements, events and webinars. This newsletter is part of the News Media Alliance Digital Dialogue. For more information on the Digital Dialogue, contact Alliance Senior VP, Strategic Initiatives Danielle Coffey at danielle@newsmediaalliance.org.
Facebook

**Subscriptions:** Facebook announced it is expanding its subscriptions test in addition to introducing a host of new features, including making it easier to integrate the Instant Articles paywall with third-party paywall providers and encouraging retention through the introduction of a new “welcome screen.” [Read more]

**Political Ad Policy:** Facebook announced it would exempt news publishers from its political ads archive, reversing its earlier decision. The new policy rolled out in the UK and will be expanded to the United States in the new year. [Read more]

**Local:** Facebook announced a new $6 million Community News Project in the UK in partnership with local media organizations. The project will facilitate the recruitment of approximately 80 community journalist trainees. [Read more]

**Breaking News:** Following testing with over 100 news publishers, Facebook announced that it will start showing a breaking news label to users in more countries, in addition to expanding the testing to new markets. [Read more]

**Training:** The Facebook Journalism Project and Storyful announced a collaborative training program to offer journalists tips and best practices on finding and verifying useful social

Google

**Ads:** Google has created an Ad Review Center as a better way to review Ad Exchange ads on publisher apps and websites. [Read more]

Google now allows publishers to specify a target CPM on open auction pricing rules, allowing them to earn more revenue over time. [Read more]

**Google Ad Experience Controls:** Now available in the UI but not yet live for serving enforcement. Publishers should check their settings before the new controls go live and the legacy rules are removed. [Read more]

**AMP:** The AMP Project announced its new governance model, including the establishment of a Technical Steering Committee and an Advisory Committee. [Read more]

The AMP Project introduced Story Ads, full-screen ads that appear in AMP stories. Google is also working to create programmatic story ad capabilities. [Read more]

The AMP Project announced a developer preview of Signed Exchanges that improves the AMP URL experience in Google Search. [Read more]

**Funding:** Google opened the final round of applications to its Digital News Innovation Fund. The Fund is open to publishers and other
media content. Read more

**Branded content:** Facebook announced changes to its branded content and brand collaborations. The changes include an updated branded content tag, testing new ways to denote brand collaborations and expanding the Brand Collabs Manager. Read more

**Tools:** Facebook launched new publisher features, including interactive video polls, Top Fans, and Premieres, which allows publishers to release pre-recorded video as a live moment. Read more

GNI Cloud Credit Program: Google announced a new phase of its Google News Initiative Cloud Program. Qualifying organizations with fewer than 1,000 employees can apply for $100,000 in Google Cloud platform credits. Read more

Fact-Checking: Google’s dataCommons project announced two new tools (currently in beta) – Fact Check Explorer and Fact Check Markup Tool – that are designed to battle disinformation on the internet. Read more

Twitter

**Transparency:** Twitter released its 13th biannual transparency report in December in an effort to show how they handle legal requests from courts and governments, as well as other content issues. The new report also includes data on enforcement of Twitter’s own rules for conduct on the platform, focusing on abuse, hate speech, threats of violence, doxing, and several other problematic behaviors tracked by the company. Read more

**Ads:** Twitter announced that publishers are now able to monetize their entire video audience

Amazon

**Subscriptions:** According to reports, some news publishers have seen subscription growth following their adoption of Amazon Pay. The payment service allows the publisher instead of Amazon to keep readers’ contact information for future use. Read more

**Tools:** Amazon is reportedly introducing two new tools to publishers in the UK: Shopping Insights and Direct Deals. Shopping Insights provides publishers with information about the shopping habits of their visitors, while Direct
using In-Stream Video Ads instead of being limited to the market where the publisher is based. [Read more]

**Political Ad Policy:** Following Twitter’s introduction of its political issue ads policy that exempts news publishers, it clarified that parent companies can apply for an exemption on behalf of their subsidiaries. Once the parent organization’s main handle has been certified, the organization can then submit additional handles for certification. If these affiliates do not meet the 200,000 monthly unique visitor criteria, they may still be certified following a review by Twitter as long as the link between the handles and the parent company is clear.

Deals improves the publishers’ private-marketplace experience. [Read more]

---

**Apple**

**Texture:** According to reports, Apple is considering relaunching its recently acquired Texture app as a premium product within Apple News sometime in the spring of 2019. Apple is reportedly also redesigning the app. [Read more]
